

AI

RON ACETO TEACHING PORTFOLIO RESOURCE

Better Prompts vs. Shortcut Prompts Activity

Responsible classroom routines for AI use, learning support, and student ownership.

Designed for practical classroom use with student-safe language, clear routines, and standards-aware planning notes.

AI Literacy Starter Kit | Updated June 2026

Better Prompts vs. Shortcut Prompts Activity

Standards review note (June 2026): Tennessee Computer Science Foundations course standards (C10H11) remain published by the Tennessee Department of Education as May 2023 standards. Standards references in this resource are intended as cautious instructional alignment notes; final alignment should be confirmed against local district pacing, course placement, and current district guidance.

Purpose: AI can help you learn, but only if you use it the right way. In this activity, you will

compare prompts that avoid thinking with prompts that support learning.

Grade Level

8-12

Estimated Time

30-45 minutes

Purpose

Students learn to rewrite shortcut-style AI prompts into learning-focused prompts.

Student Directions

AI can help you learn, but only if you use it the right way. In this activity, you will compare prompts that avoid thinking with prompts that support learning.

Part 1: Sort the Prompts

Mark each prompt as L = Learning Support, S = Shortcut, or U = Unsure.

Prompt

L / S / U

Why?

Write my essay about social

Ron Aceto | Page 3

media and teenagers.

Help me brainstorm three

possible arguments about

social media and teenagers.

Solve this math problem and

give me only the answer.

Explain the first step in this

problem and give me a

similar one to try.

Rewrite my paragraph so it

sounds more professional, but

keep my meaning and voice.

Do my Python assignment for

me.

Explain what this Python error

means and what I should

check first.

Summarize this chapter so I

do not have to read it.

A

AI should help students think better, not think less

Ron Aceto | Teaching Portfolio Resource

Prompt

L / S / U

Why?

Give me three questions I

Ron Aceto | Page 4

should answer while reading

this chapter.

Part 2: Rewrite the Prompt

Shortcut Prompt

Write my history paragraph about the American Revolution.

Better Prompt

Help me understand the causes of the American Revolution and organize my own ideas into an outline.

Shortcut prompt 1: _____

Better learning prompt 1: _____

Shortcut prompt 2: _____

Better learning prompt 2: _____

Shortcut prompt 3: _____

Better learning prompt 3: _____

Part 3: Reflection

Did the prompt help me learn?

Did the prompt keep me responsible for the work?

Would I be able to explain the result?

What should I verify?

Would my teacher consider this acceptable?

A

AI should help students think better, not think less

2

Detailed Tennessee Standards Connection

This activity directly supports standards when students evaluate AI use, revise prompts, verify outputs, and explain why a prompt supports or weakens learning.

Standards source: Tennessee Department of Education, Computer Science Foundations (C10H11), May 2023. Confirm final alignment against local district pacing, approved course placement, and teacher directions.

This resource may support the following Tennessee standards when used as part of AI literacy,

digital ethics, computer science, or cybersecurity instruction

- CSF 13.1 - Social, Legal, and Ethical Issues: Students identify responsibilities related to ethical technology use, academic integrity, copyright, privacy, and appropriate AI use.
- CSF 8.1 - Emerging Technologies: Students examine how emerging technologies influence society, school, work, and future readiness, using evidence and reflection.
- CSF 9.2 - Troubleshooting Process: Students use a structured process to identify a need, test or improve a response, verify the result, and document what they learned.

Cautious guidance: Alignment depends on local district pacing, approved course placement, teacher directions, and how the resource is used as part of instruction.

A

AI should help students think better, not think less
